

Here are some of the great benefits why our customers have bought a hot tub:

**1. Warm water is the ultimate sleeping pill.**

Soaking in warm water will artificially raise your body's temperature and then bring it back down after the soak. Studies show in doing so will exhaust your body and you will experience unbelievable sleep.

**2. It will make you money.**

Yes, believe it or not a hot tub can make you money. It's proven when you are able to experience a better nights sleep you will perform better at work the following day, making yourself more productive then ever before.

**3. The ultimate home improvement.**

A hot tub is a \$50,000 home improvement that you won't pay \$50,000. The hot tub is the only place where you and your children are confined by four walls and you and your family can talk about the day. Where else can you get your kids attention like this? It brings a whole new togetherness to you and your family.

**4. You are 90% free from gravity.**

When you are in a hot tub you are 90% free from gravity allowing your muscles and joints to relax and be at ease. You are able to take advantage of the great relaxation a hot tub has to offer.
